EMERGING MINING COMPANY OF THE YEAR 2024 - 2025

We are immensely proud to announce that TMC Mineral Resources Private Limited has been honored with the “Emerging Mining Company of the Year 2024–2025” at the Mining & Mineral Project Awards.

This prestigious recognition celebrates our unwavering commitment to innovation in mining methods, sustainability, safety of our workforce, and enhancement of living standards across our coal and non-coal operations.

From pioneering advanced underground mining techniques to promoting responsible resource development, this achievement reflects the dedication, hard work, and passion of every member of the TMC family.
This milestone is not just an award - it’s a testament to our journey toward building a sustainable, safe, and technology-driven mining future for India.

Here’s to every miner, engineer, and visionary who made this possible — the journey continues!

WHAT IS IT

What does winning the Emerging Mining Company of the Year award mean for TMC as an organization?

Winning this award is a proud moment for TMC and a big step in our journey toward responsible and sustainable mining. It is not the success of any one person, but the result of the hard work and dedication of everyone working across our mines and offices. Their teamwork, commitment, and belief in our values have made this achievement possible. This recognition strengthens our confidence to continue growing with safety, innovation, and integrity at the core.

How will this award inspire TMC to reach even higher benchmarks in the coming years?

This award motivates us to aim higher and set new standards in the mining industry. It inspires us to keep improving safety, adopt more digital and efficient technologies, and protect the environment in every step we take. Through our company's vision to establish a world-class training academy, we also aim to train and empower more people to build strong career in mining. With this recognition, TMC moves forward with even greater determination to become a true leader in sustainable mining.

OCTOBER MOMENTS TO REMEMBER

Vesting Order Issued for Rajgamar Dipside Coal Block

TMC Mineral Resources Pvt. Ltd. is proud to announce the receipt of the Vesting Order for the Rajgamar Dipside (Deavnara) coal block under the Commercial Coal Block Auction, issued by the Ministry of Coal on October 23, 2025. This milestone reinforces our commitment to sustainable mining, energy security, and regional development.

Towards a Sustainable Tomorrow

A plantation drive was organized at TMC's Haldibari site, where 1,000 saplings were planted to promote environmental sustainability. This initiative reflects our commitment to eco-friendly mining practices and creating a greener, healthier ecosystem around our operational areas.

Excellence in Action

The TMC Rescue Team participated in a rescue competition and secured second prize in the Turnout Drill category. This achievement highlights the team's dedication, discipline, and commitment to maintaining the highest standards of safety and emergency preparedness across all TMC operations.

EMPLOYEES OF THE MONTH

01

Mr. Peeyush Singh

Senior Engineer
Churcha RO UG Coal Mine

02

Mr. Deepak Bhaskar

Ram Car Operator
Churcha RO UG Coal Mine

03

Mr. Santosh Kahra

LHD Operator
Haldibari UG Coal Mine

04

Mr. Rudhrabhishek Shukla

Senior Engineer

Sial Ghogri - Manhour - 352

The Learning & Development (L&D) Centre continues to play a vital role in enhancing employee skills and fostering continuous growth. In September, the centre organized multiple training sessions covering technical expertise, safety protocols, and soft skills, empowering our workforce to stay agile, competent, and future-ready.

A total of 2,418 man-hours were dedicated to training during the month, reflecting our sustained commitment to capability building and operational excellence.

SMART SOLUTIONS

Kaizen Initiative: In-House Repair of Eimco CM Tram Planetary
Faced with a critical breakdown in the Eimco's Continuous Miner (CM) tram planetary, the NCPH R6 team demonstrated exceptional problem-solving and innovation. Despite no available solution from the Eimco team, our on-site engineers took the initiative to carry out a complete in-house repair of the planetary system.

Through teamwork, technical expertise, and determination, the team successfully restored the machine, making it fully operational for production. Remarkably, the locally repaired unit continues to perform efficiently, proving the effectiveness of our in-house capabilities and reinforcing TMC's spirit of self-reliance and continuous improvement.

During a routine inspection, Excavator No. 31 was found with a track chain issue due to a severely worn-out track shoe and bush assembly, risking undercarriage damage and downtime.

The maintenance team of Kachche, led by Mr. Yashwant Kushwaha with support from Mr. Amrit Mahato, Mr. Deepak Gupta, and Mr. Nawajish Ansari, Mr. Mohan Lal Mishra, Mr. Yogesh Sahu & Mr. Pushan Kumar identified Excavator No. 25 with a serviceable assembly for interchange. After precise measurement and adjustment, one track shoe plate was added from the worn-out set to maintain track length. The team completed the replacement safely, realigned the chain, and conducted a successful trial. This in-house repair restored the machine to full operation, minimized downtime, extended undercarriage life, and achieved a cost saving of around ₹15 lakhs, demonstrating TMC's commitment to Kaizen and maintenance excellence.
